Experience

- **Tata Consultancy Services** *Feb,2025 - Present*
  Frontend AI Engineer Noida, India
  - **Led the development of key AI platform features**, including **Workflow Studio, Harness,** delivering an **interactive react-flow canvas** for AI Agent workflow along with the development of workflow orchestration
  - **Built and scaled core frontend foundations** used across the platform including a the design system for **theming**, an **internationalization** support(English and German), **role-based control(RBAC)** system, and platform-wide **voice-to-text** capability using the Web Speech API
  - **Improved application performance and reliability** by introducing **virtualization** for large datasets, moving search and pagination to the server, optimizing API usages by introducing the **Abortcontroller** based request cancellation system
  - **Worked closely with Backend, UX, and QA teams** to define APIs, refine user experience, and align technical implementation with the business requirements, helping deliver consistent and intuitive user experiences across the platform

- **Edunet Foundation** *June,2023 - July,2023*
  Front End Training Internship Remote
  - **Gained proficiency** in front-end technologies such as **HTML**, **CSS**, **JavaScript**, and **React**
  - Created a **fully responsive** and **user-friendly** e-commerce website using those technologies
  - **Received positive feedback** from mentors for my effective problem-solving skills and meticulous attention to detail

Technical Skills & CourseWork

Languages: C, C++, HTML, CSS, JavaScript
Libraries & Frameworks: NextJS, ReactJS, Tailwind CSS, Redux, NodeJS, MongoDB, ReactFlow, Radix UI
Developer Tools: VS Code, Claude Code, GitHub, Postman
Coursework: Data Structures, Algorithms, Web Development, Object Oriented Programming, SDLC, Database Management System, Operating Systems

Personal Projects

- **EduVerse - An E-Learning Platform** ***MongoDB, Express, ReactJS, NodeJS, Redux, Tailwind CSS***
  https://eduverse-jayantbaid.vercel.app
  - Developed an **user-friendly interface** for students to browse, enroll in, and complete courses at their own pace
  - Integrated **Razorpay API** for secure and efficient payment processing, improving course enrollment
  - Deployed on a cloud-based infrastructure to ensure **data security**, **reliability**, and **global scalability**

- **Dynamic Blog Platform** ***React, Tailwind CSS, Context API***
  https://blog-context-jayant-baid.vercel.app
  - Enabled users to discover complete blog posts and recommended blogs, fostering higher engagement
  - Implemented an effortless **filtering system** for sorting blogs by tags or categories, delivering personalized content
  - Created a **visually appealing** and **adaptive design**, ensuring a smooth experience across devices

- **Dev Detective** ***HTML, CSS, JavaScript***
  https://dev-detective-jayant-baid.vercel.app
  - Leveraged the **GitHub API** to fetch and display real-time profile data with accuracy and efficiency
  - Created an **intuitive and user-friendly** web application, ensuring a seamless experience for users of all levels
  - Displayed vital profile information, including an avatar, name, location, and follower/following details, etc

Education

- **Maharaja Agrasen Institute of Technology, Delhi** *2020 - 2024*
  Bachelor of Technology in Information Technology and Engineering CGPA: 9.272
- **New Green Field School** *2020*
  Central Board of Secondary Education, Delhi Percentage: 95.6
